SELLING 75 PERFORMANCE TESTED REGISTERED ANGUS BULLS

Mogck Angus Farms has been running a progressive cattle operation for over 80 years. The foundation of our herd is built on cattle that are sound on their feet and legs, are properly structured and cattle that are designed to live long and productive lives. We've heard numerous success stories from our buyers about bulls still in production at 9, 10 years of age or older. Our Snowflake donor cow is 10 years old and is still flawless in her structure, her soundness and ultimately in her productivity. A solid foundation is built from the ground up and that's the same principal by which Mogck Angus Farms has been managing it's herd from the beginning and will continue to do so without sacrifice moving forward.
