Daisy, sired by Antidote and dam of Watchout 2546.
GRANDDAM TO SEVERAL THAT ARE SELLING.

online sale 
NOVEMBER 28

Hosted by AngusLive.com

Our 2017 sale will feature a mix of both show heifer & steer prospects along with several high quality heifer calves that are performance focused and backed by the leading genetics in the Angus breed. Many of the heifers in this sale trace back to Antidote, a bull that has a proven background of superior maternal traits along with an outcross pedigree. These are fresh and unique genetics that are not offered in any other sales across the country.

MAF Watchout 2546

Reg # 18268168

MAF Watchout 2546 (sired by Silveiras Watchout 0514) was a crowd favorite and popular display bull for us at the 2016 National Western Stock Show. Highlighting the sale will be his very first daughters including 2 gorgeous show heifer prospects out of very promising Connealy Confidence dams. We believe the steers offered by Watchout 2546 will have the quality to compete at the major State Fairs as well as the National Junior Angus Show.
